

BLUE LAKE SPRINGS MUTUAL WATER COMPANY
INFRASTRUCTURE IMPROVEMENT/WATER METER INSTALLATION PROJECT

Question Doc #4

Quick question for our electrical engineering subconsultant; are electrical system improvement plans (Prints, pdf's, AutoCAD drawings?) available for the existing Crystal Point Booster Pump Station? We do not need to receive a set of plans for our proposal we are just checking on their availability for the scope of the engineering/ design services .

There are no electrical system improvement plans drawn up for the Cypress Point Pumphouse.
